

Dust formation and survival around AGNs

Arkaprabha Sarangi^{1,2}, Eli Dwek¹ & Demos Kazanas¹
 1) NASA Goddard Space Flight Center 2) CRESST II/CUA

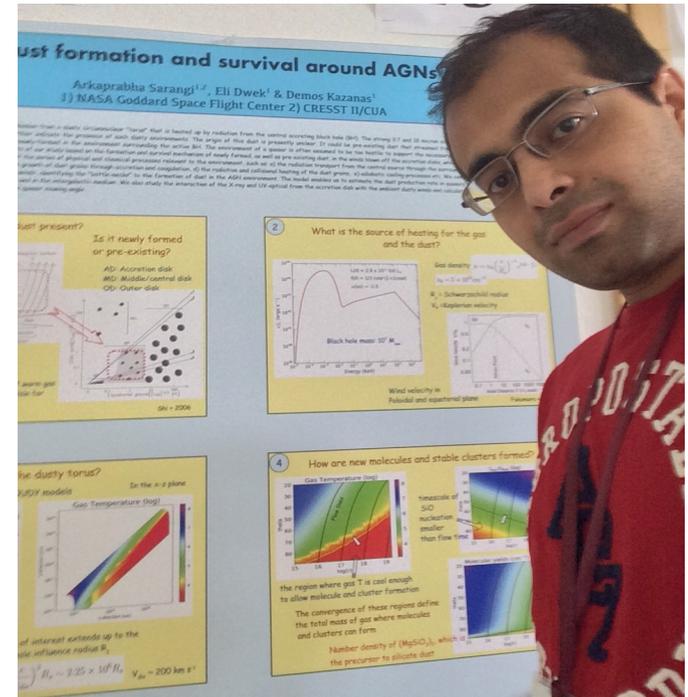

Poster board 62

*This is my selfie
 Where is yours?*

- ★ Can new dust grains form in the magnetic field driven winds?
- ★ What is the mechanism?
- ★ How is the dusty torus formed?
- ★ How much dust is formed per year?
- ★ Can AGN environments be an important source of new dust in the galaxy?

Konigl & Kartje 1994
