

Cosmic Dust: origin, applications & implications

Monday, June 11, 2018

Dust production in low mass stars: Dust production in low mass stars - Main Auditorium (2:00 PM - 3:20 PM)

-Conveners: Ciska Kemper

time	[id]	title	presenter
2:00 PM	M14	Dust production in low- and intermediate-mass stars	Prof. HÖFNER, Susanne
2:45 PM	M15	Dust production in low mass stars	Dr SRINIVASAN, Sundar

Dust production in low mass stars: Dust production in low mass stars - Main Auditorium (3:45 PM - 5:00 PM)

-Conveners: Ciska Kemper

time	[id]	title	presenter
3:45 PM	M12	Infrared light curves of dusty & metal-poor AGB stars	GOLDMAN, Steve
4:10 PM	M100	The metallicity-dependence of mass loss in carbon stars	Dr BLADH, Sara
4:35 PM	M13	The submm properties of dust around carbon AGB stars	MAERCKER, Matthias
