

Cosmic Dust: origin, applications & implications

Thursday 14 June 2018

Dust as a galaxy probe: Dust as a galaxy probe - Main Auditorium (15:30 - 17:15)

-Conveners: Georgios Magdis

time	[id] title	presenter
15:30	[20] Dust as a galaxy probe	Prof. AALTO, Susanne
16:15	[21] Insights into the Life Cycle of Dust at Low Metallicity from the Local Group and Nearby Galaxies	Dr SANDSTROM, Karin
16:50	[133] Radiative transfer model of dust attenuation curves in clumpy, galactic environments	SEON, Kwang-il
