

# The 8th International Ice Drill Symposium

## Tuesday 1 October 2019

### Session 3 (09:00 - 12:00)

time	[id] title	presenter
09:00	[24] Drilling the new 5G-5 branch hole at Vostok Station for collecting a replicate core of old meteoric ice	Mr TURKEEV, Alexey
09:20	[38] Analysis of Challenges Encountered in Deep-Hole Ice Drilling	Mr VASILEV, Dmitrii
09:40	[44] Drilling the South Pole Ice Core (SPICEcore)	Mr JOHNSON, Jay
10:00	Coffee	
10:40	[40] EGRIP – a deep ice core drilling camp in Greenland: New concepts and new construction methods.	STEFFENSEN, Joergen Peder
11:00	[39] Penetration Technology for Investigation of Subglacial Lake Vostok	Mr VASILEV, Dmitrii
11:20	[46] Development of the Foro 3000 Deep Ice Core Drill	Mr JOHNSON, Jay
11:40	[55] The Skytrain ice core drilling project	RIX, Julius
