

The 8th International Ice Drill Symposium

Wednesday 2 October 2019

Session 5 (09:00 - 12:00)

time	[id] title	presenter
09:00	[78] Directional Drilling for Inclination Correction and Potential for Replicate Coring at EGRIP	COPENHAGEN DRILL GROUP
09:20	[80] Programmable deployed borehole measurement system for hot water drilled ice holes	Mr MCAFEE, Carson
09:40	[79] A New Hot Water Drill System for Antarctic Ice Shelf Investigation	Prof. LI, Yuansheng
10:00	Coffee	
10:40	[10] RECAS autonomous thermal sonde for subglacial lakes exploration	Prof. SUN, Youhong
11:00	[9] Vibrocorer for Sampling of Subglacial Sediments in Antarctica	Dr GONG, Da
11:20	[23] New capability to recover intermediate depth cores from the sea floor beneath floating ice platforms	Mr PYNE, Alex
11:40	[94] Dome A presentation	Prof. TALALAY, Pavel
