

# The Beginning and Ends of Double White Dwarfs

## Wednesday, 3 July 2019

### Observed WD Populations 2: Observed populations - Main Auditorium (09:30 - 10:50)

-Conveners: Valeriya Korol

time	[id] title	presenter
09:30	[16] Quantification of the effects of unresolved double-degenerates in the white dwarf luminosity function	Dr REBASSA-MANSERGAS, Alberto
09:50	[22] Double White Dwarfs and the Incidence of Magnetism	KILIC, Mukremin
10:10	[50] Stellar mergers	Mr TEMMINK, Karel
10:30	[49] High-Mass White Dwarfs in Gaia DR2: the Q Branch and Double-WD Mergers	CHENG, Sihao

### Observed WD Populations 2: Triples - Main Auditorium (11:35 - 12:30)

-Conveners: Hagai Perets

time	[id] title	presenter
11:35	[47] Limits from Gaia on the population of collisional-triple SN Ia progenitors	MAOZ, Dan
11:55	[30] New observational constraints on the merger rate of double white dwarfs in triple systems	CHANAMÉ, Julio
