**16-20 Aug 2021**

**Amplitudes 2021**

***Friday Session***

Zoom

# Friday 20 August

13:00

## Friday Session

**Session** | **Location:** Zoom

13:00–13:45

### Moduli space of tropical curves and Feynman integrals

#### Speaker

Francis Brown

13:45–14:00

### Discussion/Break

14:00–14:30

### The Elliptic Double Box and its Symbol

#### Speaker

Chi Zhang

14:30–15:00

### Precision Calculations for Collider Physics: the Subtraction Contribution

#### Speaker

Chiara Signorile-Signorile

15:00–15:30

### Discussion/Break

15:30–16:15

### w 1+infinity and the celestial sphere

#### Speaker

Andy Strominger

16:15–16:30

### Discussion/Break

16:30–17:00

### Soft theorems and massive recursion relations

#### Speaker

Camila Machado

17:00–17:45

### Feynman integrals beyond modular forms

#### Speaker

Claude Duhr

17:45–19:30

### Dinner/Long Break

19:30–20:00

### Differential BCJ Relations for AdS Boundary Correlators

#### Speaker

Fei Teng

20:00–20:45

### Coaction for Feynman Integrals

#### Speaker

Ruth Britto

20:45–21:00

### Short Break

21:00-22:30

Conference Summary and Outlook

Speaker

Lance Dixon

22:30
