

Galaxy gas and dust

Wednesday, February 9, 2022 9:30 AM (1h 10m)

This lecture is divided in two parts:

Prof. Magdis will talk about gas content in galaxies and how to measure gas mass.

Prof. Greve will discuss modeling of photo-dissociation regions (PDR) and interstellar medium (ISM) diagnostics.

Primary authors: MAGDIS, Georgios; GREVE, Thomas (UCL)

Presenters: MAGDIS, Georgios; GREVE, Thomas (UCL)

Track Classification: Telescopes and computers: windows on the early universe
