

# NBIA Summer School on Neutrinos: Here, There & Everywhere

## Monday, 17 July 2023

### Topical Seminar - Auditorium A (13:30 - 14:00)

| time  | [id] title  | presenter            |
|-------|---|----------------------|
| 13:30 | [95] Exploring the dark Universe with gravitational waves | EZQUIAGA, Jose Maria |

# Tuesday, 18 July 2023

## Topical Seminar - Auditorium A (13:30 - 14:00)

| time  | [id] title   | presenter       |
|-------|--|-----------------|
| 13:30 | [106] Diffusive shock acceleration and multi-messenger radiation from wind bubbles | PERETTI, Enrico |

# Wednesday, 19 July 2023

## Topical Seminar - Auditorium A (13:30 - 14:00)

| time  | [id] title                                      | presenter       |
|-------|---|-----------------|
| 13:30 | [87] Neutrino constraints from gamma-ray bursts | RUDOLPH, Annika |

# Thursday, 20 July 2023

## Topical Seminar - Auditorium A (13:30 - 14:00)

| time  | [id] title   | presenter         |
|-------|--|-------------------|
| 13:30 | [89] Near-future discovery of point sources of ultra-high-energy neutrinos | FIORILLO, Damiano |

# Friday, 21 July 2023

## Topical Seminar - Auditorium A (11:00 - 11:30)

| time  | [id] title                                    | presenter         |
|-------|---|-------------------|
| 11:00 | [88] Coherent forward scattering of neutrinos | SHALGAR, Shashank |
