

The Women of NBI—Then and Now

Report of Contributions

Contribution ID: 1

Type: **not specified**

Opening

Tuesday 12 November 2024 12:15 (15 minutes)

Presenter: MALLING, Maren (Kvinder i Fysik)

Contribution ID: 2

Type: **not specified**

Hanna Adler and Kirstine Meyer: The first women physicists in DK

Tuesday 12 November 2024 12:30 (30 minutes)

Presenter: SKAAR JACOBSEN, Anja

Session Classification: Session 1

Contribution ID: 3

Type: **not specified**

Women in the Early History of NBI

Tuesday 12 November 2024 13:00 (30 minutes)

Presenter: JOAS, Christian (Niels Bohr Archive)

Session Classification: Session 1

Contribution ID: 4

Type: **not specified**

Margrethe Bohr

Tuesday 12 November 2024 15:00 (30 minutes)

Presenter: SUNDERLAND, Rob

Session Classification: Session 2

Contribution ID: 5

Type: **not specified**

Discussion session

Tuesday 12 November 2024 14:00 (30 minutes)

Session Classification: Session 1

Contribution ID: 6

Type: **not specified**

Hilde Levi

Tuesday 12 November 2024 15:30 (30 minutes)

Presenter: HØJGAARD, Liselotte

Session Classification: Session 2

Contribution ID: 7

Type: **not specified**

At and Beyond the Frontline of Research

Tuesday 12 November 2024 13:30 (30 minutes)

Presenter: ODDERSHEDDE, Lene

Session Classification: Session 1

Contribution ID: **8**

Type: **not specified**

Discussion session

Tuesday 12 November 2024 16:00 (20 minutes)

Session Classification: Session 2

Contribution ID: 9

Type: **not specified**

Keynote presentation: Lise Meitner - Her Life and the Discovery of Fission

Tuesday 12 November 2024 17:30 (1h 30m)

Lise Meitner was one of the pioneers of nuclear physics and co-discoverer, with Otto Hahn and Fritz Strassmann, of nuclear fission. Albert Einstein once called her “the most significant woman scientist of the 20th century.” Yet by the 1970s, her name was nearly forgotten. With the publication of the book by Ruth Lewin Sime, “Lise Meitner, A life in physics,” to some extent her name has resurfaced. The chronology of the discovery of fission is considerably more complex than the facts, and clouded by events beyond the world of science. The facts are that on January 6, 1939, Hahn and Strassmann reported in *Naturwissenschaften* their chemical findings for fission. On February 11, 1939, Meitner and Frisch published in *Nature* the physical interpretation of the process they named fission. In 1944, Otto Hahn alone received the Nobel Prize in Chemistry “for his discovery of the fission of heavy nuclei.”

I became familiar with Lise Meitner and her story when, in 1972, Dr. Sime started writing my father for details about Lise Meitner’s escape from Germany. This is because in July 1938, my grandfather, Dirk Coster, was the person who escorted her out of Germany. In Sime’s book, Meitner’s escape from Germany reads like a spy novel, except that it is completely based in fact. At age 59, Meitner left Germany forever with 10 marks in her purse, one small suitcase, and a diamond ring given to her by Otto Hahn that he had inherited from his mother.

This talk will be a combination of facts, excerpts from the film, “Path to Nuclear Fission: The Story of Lise Meitner and Otto Hahn” (a film by Rosemarie Reed), and personal stories heard from my father, aunts, and uncles. Lise Meitner’s early years, her role in the discovery of nuclear fission, her escape from Germany, and the consequences that followed will be covered.

Presenter: COSTER, Anthea J.

Type: **not specified**

From Academia to Industry

Wednesday 13 November 2024 09:00 (30 minutes)

Presenter: ULRIKEHOLM, Elisabeth

Session Classification: Session 3

Contribution ID: 11

Type: **not specified**

Biocomplexity: A Physicist Approach to Life

Wednesday 13 November 2024 09:30 (30 minutes)

Presenter: MITARAI, Namiko

Session Classification: Session 3

Contribution ID: **12**

Type: **not specified**

Discussion session

Wednesday 13 November 2024 10:00 (20 minutes)

Session Classification: Session 3

Contribution ID: 13

Type: **not specified**

Decoding Dark Matter with Stellar Streams

Wednesday 13 November 2024 11:30 (30 minutes)

Presenter: PEARSON, Sarah

Session Classification: Session 4

Contribution ID: 14

Type: **not specified**

Messengers of Cosmic Booms

Wednesday 13 November 2024 12:00 (30 minutes)

Presenter: TAMBORRA, Irene

Session Classification: Session 4

Contribution ID: 15

Type: **not specified**

Julie Vinter Hansen

Wednesday 13 November 2024 11:00 (30 minutes)

Presenter: ROSENBECK, Bente

Session Classification: Session 4

Contribution ID: **16**

Type: **not specified**

Discussion session

Wednesday 13 November 2024 12:30 (30 minutes)

Session Classification: Session 4

Contribution ID: 17

Type: **not specified**

Panel Discussion

Wednesday 13 November 2024 14:30 (1h 30m)

Panelists:

Anja. C. Andersen, Professor at NBI, University of Copenhagen
Anthea J. Coster, Assistant Director, MIT Haystack Observatory
Lif Lund Jacobsen, Natural History Museum Denmark, University of Copenhagen
Joachim Mathiesen, Head of Institute, NBI, University of Copenhagen

Moderator:

Maren Malling, chair of Kvinder i Fysik
