

# Heavy ions: Experiments Confront Theory

## Monday, 7 November 2011

**Afternoon - Auditorium M (14:00 - 16:45)**

**-Conveners: Christian Holm Christensen**

time	[id] title	presenter
14:00	[8] Angular correlations	Prof. SNELLINGS, Raimond
14:45	[10] The DIPSY event generator for minimum bias and heavy ion collisions	Prof. LÖNNBLAD, Lief
15:30	Coffee	
16:00	[17] Jets in a quark-gluon plasma	Dr TYWONIUK, Konrad

# Tuesday, 8 November 2011

## Afternoon - Auditorium M (14:00 - 17:00)

-Conveners: Jens Jorgen Gaardhoje

time	[id] title	presenter
14:00	[14] Heavy ion collisions at the LHC - selected topics from a theorist's perspective	Prof. WIEDEMANN, Urs Achim
14:45	[15] Eccentricities in heavy ions from DIPSY	Dr FLENSBURG, Christoffer
15:30	Coffee	
16:00	[16] Lattice QCD at non zero chemical potential - status and challenges	Prof. SPLITTORFF, Kim
16:30	[21] TBA	Dr GUFFANTI, Alberto
