

MICRA 2009

Microphysics in Computational Relativistic Astrophysics

August 24 – 28, 2009

**Summer Workshop at the
Niels Bohr International Academy
Copenhagen, Denmark**

**Towards reliable computational models
of Stellar Collapse, Neutron Stars,
Compact Binary Coalescence, and
Gamma-Ray Burst Central Engines**

**The Nuclear Equation of State
Neutrino Transport and Microphysics
Nuclear Reactions and Reaction Networks
GRMHD, Subscale and Accretion Physics**

Registration:
www.micra2009.org

Scientific Advisory Committee

David Arnett (Arizona), Axel Brandenburg (NORDITA),
Adam Burrows (Princeton), Joan Centrella (NASA/Goddard),
Wick Haxton (U of Washington), James Lattimer (Stony Brook),
Karlheinz Langanke (GSI), Åke Nordlund (NBI),
Sanjay Reddy (LANL), and Katsuhiko Sato (Tokyo)

Local Organizing Committee

Jacob Trier Frederiksen (NBI), Christian D. Ott (NBI/Caltech),
and Christopher Pethick (NBI/NORDITA)

Contact: micra2009@nbi.dk
