

Non-ideal MHD, Stability, and Dissipation in Protoplanetary Disks

Tuesday, 5 August 2014

Tuesday Morning - Auditorium A (09:00 - 12:30)

-Conveners: Richard Nelson

time	[id] title	presenter
09:00	[26] Magnetic drift in protoplanetary and circumplanetary discs	Prof. WARDLE, Mark
09:30	[39] Global Multifluid Simulations of the Magnetorotational Instability in Protoplanetary Disks	RODGERS LEE, Donna
10:00	[25] Magnetic Self-Organization in Hall-Dominated Magnetorotational Turbulence	Dr KUNZ, Matthew
10:30	Coffee Break	
11:00	[4] Thanatology in protoplanetary discs	Dr LESUR, Geoffroy
11:30	[9] Gas Dynamics in Protoplanetary Disks including Ohmic, Hall and Ambipolar Diffusion	Dr BAI, Xuening
12:00	[30] Discussion II
