

Non-ideal MHD, Stability, and Dissipation in Protoplanetary Disks

Wednesday, 6 August 2014

Wednesday Afternoon - Auditorium A (14:00 - 16:30)

-Conveners: Philip Armitage

time	[id] title	presenter
14:00	[22] Linear stability of accretion disks under the influence of stratification and thermal relaxation	Dr KLAHR, Hubert
14:30	[23] Nonlinear evolution of the vertical shear instability in accretion discs	Prof. NELSON, Richard
15:00	Coffee Break	
15:30	[28] On Vertically Global, Horizontally Local Models for Astrophysical Disks	Dr PESSAH, Martin
16:00	[33] Discussion V
