

Niels Bohr International Academy workshop on

Hidden Structures in Field Theory Amplitudes

Copenhagen
12-14 August 2009

A small informal workshop centered on recent developments in amplitude calculations in field theory in a broad sense of the word. The focus will be on exchanging ideas about the structural aspects of these and lessons that can be drawn from them. The website of the workshop can be found at

<http://www.nbia.dk/hs2009>

Speakers include:

- Nima Arkani-Hamed (IAS)
- Zvi Bern (UCLA)
- James Drummond (LAPTH, Annecy)
- David Dunbar (Swansea)
- Paul Howe (King's College, University of London)
- Gregory Korchemsky (Orsay & Saclay)
- David Kosower* (Saclay)
- Radu Roiban (Penn State)
- Gabriele Travaglini (Queen Mary, University of London)
- Pierre Vanhove (IHES & Saclay)

* = to be confirmed

The Niels Bohr International Academy is a part of the Niels Bohr Institute which aims to extend the long tradition of outstanding research in theoretical physics in Copenhagen.
